

ORGANIZATIONAL MANAGEMENT (8301) EMERGING COMPUTER TECHNOLOGIES

BACHELOR OF APPLIED SCIENCE DEGREE

The Bachelor of Applied Science (BAS) in Organizational Management degree provides students with the skills and knowledge necessary to enter the workforce or advance in a mid-management level position. The program will prepare students for careers within the public, private, and non-profit sectors. A practical approach with real-world applications of skills and knowledge will be used to gain an understanding of leadership issues involved in the operations of a business organization. Coursework is designed to broaden students' knowledge in applied management practices and prepare students for leadership opportunities within their chosen field.

This program uses a 2+2 model requiring the completion of an associate degree or higher with 60 transferable credits from an accredited 4-year college or university for entry into the program. The BAS in Organizational Management can be obtained online.

The specialization of Emerging Computer Technologies is designed to prepare students with the foundational skills needed to advance their careers within their chosen organizations in positions with increasing management and supervisory responsibility. Specialized courses are in the discipline of computer technology.

For additional information, call (386) 312-4194.
